Session 11

### Teaching Gifted & Special Needs

What are your child's gifts?

Behavior:

- ✓ Is it a heart issue or a physical problem?
- ✓ Is it right or left brain?

Left Brain	Right Brain
Positive	Negative
Reward	Pain
If you do __, you will __.	If you don't do __, you won't get to __.

- ✓ Teach, don't enforce.
- ✓ Be patient. (Do you have realistic expectations?)
- ✓ Be consistent.
- ✓ Catch them being good.
- ✓ Don't make promises you can't keep.
- ✓ Give pre-activity warnings.
- ✓ Help your child learn self-control; be their control until they can do it.
